

# An Open Night at Healing Oceans: Vaccinations

## **A question and answer evening with Dr. Deborah Ginsburg.**

Meet to discuss the pros and cons of childhood vaccinations, and hear about evidence not commonly known.

Bring your questions for a stimulating, informal evening.

She'll answer questions on vaccination safety and usefulness, as well as other issues related to vaccines, such as the increased incidence of allergies, damage to digestive function, and alteration of the immune system. She'll also address ways to keep kids healthy so they are less likely to get ill, and what to do if they become ill.

**Dr. Ginsburg is a board certified Family Doctor with additional certification in Integrative Holistic Medicine.**

**No fee. Please call to let us know you're coming.**

**Date: May 4, 2015**

**Time: 6:30 to 8:30 p.m.**
